

Certification

April 30, 2026

Students enrolled in CIS 119 at King's College, under the instruction of Professor Shirley Yanovich, achieved Microsoft "Excel" Certification. This certification reflects industry standard assessments of skills and knowledge, using project-based testing that allows students to demonstrate their proficiency through practical, hands-on exercises. The Microsoft Office Specialist Program is the only Microsoft-recognized certification program for Microsoft Office worldwide.

What an amazing achievement! All 37 students who took the exam *passed it!* That is a 100% success rate—WOO-HOO! Even more impressive, 16 students scored 900 or higher, which is absolutely outstanding. A very special shoutout and *huge* congratulations to **Emily Conway, Khloe Evans, Max Mohutsky, Joseph Schneider, and Danielle Elias** for earning a *perfect* score of **1000 points**—incredible work!

Shown are, from left, seated row – Garrett Horvath, Christian Kuhns, Adam Lasoski, and Jorden Lech.

Standing row – Maximilian Mohutsky, Phillip Allabaugh, Tyler Sciandra, Emily Conway, Sean Williams, Khloe Evans, Ryan Brennan, Becky Mastrosimone, Braeden Cook, Ben Debalko, Gabriel Fuentes, Austin Rood, Patricia De la Rosa, Matthew Gandarillas, and Joseph Schneider.

Shown are, from left, seated row – Makenzie Musselman, Phillip Oden, Hugo Macias, Vanessa Perez, and Kenwar Johnson,

Standing row – Jg Amigon, Dagmar Rodriguez, Alex Schoch, Neshell Gill, Johnathan Turner, Tyler Balok, Padraic Banfield, Garrett Burys, Dakota Souchak, Natalie Dopp, Aj Scialpi, and Danielle Elias.
